Recently relocated from Alaska to Ellenton, Florida

Seeking new opportunity in Florida

---

(907) 355-8883 | ds@bluediamondwebs.com

Online Resume: www.dsteinberger.com

I am pleased to offer this cover letter to serve as an introduction, and to provide a brief insight to my goals, my work ethic, and my character.

The attached resume details my extensive experience and training. If you choose to interview and hire me, you will not be disappointed.

As a senior web designer, webmaster, and a seasoned professional, I bring a diverse set of skills and over 25 years of experience to the task of web design, development, and support. I routinely take ownership of projects and enjoy building collaborative relationships with team members and stakeholders.

My experience spans web design projects from domain creation to hosting, design staging, and publication. I am seeking an opportunity to find a business I can call home as I have now settled and ready to focus on work.

I believe my knowledge and experience has positioned me for successfully offering my services to organizations in search of team players willing to accept responsibilities that support strategic initiatives either in a long-term setting or, as a contract consultant.

If you are seeking a person who stays abreast of the field, who understands technology, who earns 100% confidence through effective communications and reporting, and who is as career-committed as necessary to achieve total success, then please consider my offer. I would be happy to have a preliminary discussion with you, or members of your staff, to see if we might establish an opportunity goal that will lead to a successful relationship.

I will be pleased to hear from you to answer any initial questions you may have. I thank you for your consideration, and for your interest in my resume. You may review my with work examples and portfolio at the following URL:http://dsteinberger.com I also invite you to visit my custom web design site where you will be able to view more of my site designs at: https://www.bluediamondwebs.com I normally post between 60-70 of recent web designs within the portfolio page.

I certainly look forward to exploring opportunities you may have further.

Best Regards,

Don Steinberger

DON W. STEINBERGER
Webmaster – Web Designer – Web Developer

907-355-8883
ds@bluediamondwebs.com

Online Resume: www.dsteinberger.com

As a senior web designer, webmaster, and a seasoned professional, I bring a diverse set of skills and over 24 years of experience to the task of web design, development, and support. I routinely take ownership of projects and enjoy building collaborative relationships with team members and stakeholders. My experience spans web design projects from domain creation to hosting, design staging, and publication.

I am seeking new projects integrating dynamic web designs based on unfolding UI/UX and iOS frameworks deployed on state of the art Content Managed Systems (CMS) web publications. My focus is aimed at a mobile first design strategy that associates speed and engaging visual effects.

My search includes a strong design focus using feature themes that are user friendly to provide clear access to stakeholder members desiring open door editing.

Employment History

Blue Diamond Webs
6/1994 -
Senior Web Design Engineer
Webmaster

Contracted by clients to design and deploy published websites for use on the World Wide Web through service web development company providing services to small businessmen, www.bluediamondwebs.com . Site development includes site design and organization, content

layout, site navigation, domain name registration, search engine registrations, merchant account development, shopping cart installation, Search Engine Optimization, AdWords development, and credit card and payment processor development. Currently, I have designed and developed over 970 commercial grade websites ranging from the family photo album to classified government websites for the Department of Energy along with university level websites for Regis University, University of Colorado, Boulder and, University of Alaska Anchorage. Websites have been built using 6 different CMS platforms to include, (10) HyperCard, (20) Dreamweaver, (300) HTML, (360+) .ASP, (252+) DotNetNuke, and (86) WordPress.

Alaska Native Tribal Health Consortium & Alaska Native Medical Center (ANTHC & ANMC)
10/06/2014 – 9/28/2018
Web Media Specialist (Webmaster)

Responsibilities
Under limited supervision, responsible for designs, developments, and deliveries of multiple websites for ANTHC while supporting ANTHC communications and marketing projects by taking graphics or other visual and descriptive collateral developed by ANTHC staff and applying it to the web. ANTHC is the largest, most comprehensive Tribal health organization in the United States, and Alaska's second-largest health employer with more than 3,600 employees offering an array of health services to people around the nation's largest state. As a Marketing Media Web Specialist, the primary responsibility is in the design, development, and delivery of multiple WordPress and HTML websites for ANTHC. The primary design platform has been the WordPress platform using different themes, plugins, and basic design layouts for a medical community encompassing a 250 bed hospital and supporting medical outpatient clinics. The technical tools have included the WordPress CMS platform, Bootstrap, CSS3, javascript, Divi Theme, PHP, HTML, HTML5, CSS, and multiple plugins to perform numerous duties supported by graphics designed using PhotoShop CS platform.

www.colorado.edu/cadre/multimedia

Regis University, Denver, CO
6/1998 – 6/2002
Instructional Technology Specialist

Hired as Webmaster in the Information Technology Services Department supporting a five campus university. Responsibilities include the customary evaluation of hardware and software capable of enhancing the teaching, learning, research and administrative use of multimedia, analog and digital technologies, presentation technologies and classroom technologies. Responsible for coordinating the integration of advanced technical services that encompass Internet topologies and protocols, e-mail services, the World Wide Web, broadband audio and video streaming broadcast services, and interactive classroom presentation and teleconferencing media into curriculums university wide.
www.regis.edu

Kaiser-Hill Corporation Denver, CO
2000
Project Management/Web Design Consultant

Hired as Project Manager by Department of Energy Nuclear Facilities Contractor, Kaiser-Hill Corporation, to oversee Intranet Web development and upgrade. Technical development included performance needs analysis to clarify technical and design issues relevant to client management and user groups. Developed Project statement of work to include project design, cost benefit analysis, deliverables, reporting methods, milestones, deployment methodologies, and an intensive classroom training program supported by handouts, flyers, training manuals, and Power Point presentations for over 200 end users. Project was completed on December 10, 2000, with successful deployment on the action plan delivery date.

Tenera, Inc, Denver, CO
2000
Project Manager

Hired to develop five group level databases. Project planning process included extensive needs analysis research, cost benefit analysis, risk analysis, telecommunications and electronic systems analysis, and project quality plan included in project planning documents. Databases developed in FileMaker Pro 4.1 & 5.0 and deployed via Intranet using FileMaker Pro 5 server software. Database designs include data entry and accounting controls for physical inventories of various warehoused materials. All databases include modules for password secured entry, data entry, inventory movement module, parts ID, parts descriptions, parts activity time and date, and field and file modification tracking. Project included development of user group training program using Power Point slide show, in-depth student hand out materials, and classroom training periods. Extensive use of MS Project as project management tool used for planning, scheduling, and project control.

Dyn I&ET
Denver, CO
2000 - 2002
Project Manager/Webmaster

Provide lifecycle software development using FileMaker Pro to be housed on a site secured server at the Rocky Flats Environmental Clean Up Site located in Golden, Colorado. Project planning and design included a needs analysis, cost benefit analysis, a user impact study, system improvement analysis, a user-group training plan, and a project contingency plan. The project incorporated the lifecycle development of a software application that includes elements for password entry, four level controlled user access, date sensitive user password expiration controls, data entry, limited access data entry fields, limited access supervisory fields, and limited access management fields, field and file modification tracking module, inventory tracking, nuclear rules infractions tracking module, forms module, reports module, daily auto-backup module, and automatic archiving on thirty day intervals control.

Blue Diamond Webs
Atlanta, GA
08/01/1994 – 12/21/1999

Contracted by clients to design and deploy published websites for use on the World Wide Web through service web development company providing services to small businessmen, www.bluediamondwebs.com .

Georgia Institute of Technology - Atlanta, Georgia
2/90-8/94
Senior Research Analyst II

Hired as Senior Research Analyst II with project management responsibilities that included the research and analysis of statistical data incorporated into polished publications in support of the President's Office.
